EARTH MOVEMENTS.

A Virginia newspaper tells us that in that Great Dismal Swamp there is a gradual upheaval of forest trees, which were probably submerged centuries ago. They are of different species, but mostly of cedar, and the heart of the trees are perfectly sound. Similar actions of the subterranean world are frequently recorded in Europe, and also in South America. Sir Charles Lyell a few years since made us familiar with the fact of the upheaval of the Scandinavian Peninsular, and more recently M Reclus, a distinguished French auther, reported the upheaval of deep valleys in Norway, where certain fine woods (not now growing there,) were found, being upheaved toward the lower snow limits. Wide belts of trees were discovered lying just as they fell, layer upon layer, and mostly in a good state of preservation. Fresh islets have appeared within the last quarter of a century in the gulfs of Finland. From South America comes the report that the western coast, from the island of Chiloe to Callao, is upheaving, while Patagonia is gradually sinking Here are "mysteries" to the uneducated mind; but scientific men tell us that Nature is always at work, and that while one portion of the earth is constantly gaining, another part is losing Mother Earth thus takes care of herself.

REGULATING THE RAILROADS.

The California Constitutional Convention has adopted the annexed articles bearing upon railroad corporations:

Sec. 15. All railroads and transportation companies shall be common carriers and subject to legislative control. Any association or corporation, organized for the purpose in this State, shall have the right to construct and to connect at the State line with railroads of other States. Every railroad company shall have the right with its road to in ersect, connect with, or cross any other railroad, and shall receive and transport each other's passengers, tonnage and cars without delay or discrimination.

Sec. 16 No President, Director, officer, agent or employe of any railroad or canal company shall be interested, directly, in the furnishing of material or supplies to such company, or in the business of transportation as a common carrier of freight or passengers over the works owned, leased, controlled, or worked by such company.

Sec. 17. No railroad or other transportation company shall grant free passes, or passes or tickets at a discount, to any person holding any office of honor, trust or profit in this State; and the acceptance of any such pass or ticket by a member of the Legislature or any public officer, shall work a forfeiture of his office.

THE SOLID SOUTH.

The solid South is not so solid as it was, if the Republicans and the Independents elected are all counted. But it was more solid last election than it will ever be again. The Republicans who are counting on the solid South as a good issue in 1880 are mistaken. The color line is breaking down very rapidly in all the Southern States, and the following remarks in a recent number of the New Orleans *Picayune* show the drift of political thought in the South: "It is certain that there will always be a party in Louisiana in opposition to the Democracy. The conservative citizens, heretofore driven in one direction by outside tyranny and therefore acting in unison, now that the pressure is removed may exercise more freedom, more independence and more individualism For years it has been held unpatriotic for any white Louisianian to attempt to defeat the will of the conservative party, and well we know that those citizens of the State who gave aid and comfort to the radical party before 1877 made themselvs entirely and permanently odious. But the time is coming when a new party may be expected here, and when many white citizens will not deem united action so essential as to override all party differences."

We observe that many partisan journals are already making up lists of the next Presidential vote, and both sides have the habit of counting all the Southern States for the Democratic party. Two years is a long time, and at the rate at which events are moving we suspect that there wil be neither a solid South nor a solid North in 1880.—*New York Herald*

NEWS OF THE MORNING.

Thursday in London United States Minister Welch paid over to Her Majesty's Government the amount of the Halifax fisheries award by a draft for $5,500,000.

The first shot of the war in Afghanistan was fired yesterday. The encounter was between some pickets in the neighborhood of Ali Musjed, a fort in the Khyber pass. The fort was subsequently abandoned by the Afghans and occupied by the British.

Information has been received by the government of a proposition now pending in the Georgia Legislature, to grant special privileges to ex Confederates who have been disabled by wounds or the loss of limbs, by exempting them from State and county levies. It is thought that this example will be imitated in other States.

The belief gains strength that Passanto who attempted to kill King Humbert, had accomplices. Two noted Internationalists quitted Naples immediately after the crime. When Passanto was arrested ten years ago at Palermo for posting revolutionary placards, he told the police that he was studying French for the purpose of going to Paris to kill Napoleon III.

A. J. Ralston, J. D. Fry and J. C. L. Wadsworth have brought suit in the San Francisco Probate Court to have a guardian appointed for Mrs. W. C. Ralston, whom it is claimed is incapable of taking care of her property or her children. It is claimed that she is under the influence of persons having no claims upon her, upon whom she has spent over a hundred thousand dollars, and it is to save the remnants of her estate that the application is made.

THE SPEAKERSHIP.

John S. Mayhugh, of Elko, who is so favorably mentioned for Speaker of the Assembly, is well qualified for the position. He has been four times a member of our Legislature and was Speaker *pro tem* in the session of 1863. He is a thorough parliamentarian, and as presiding officer would do justice to all, and dispatch business promptly. Eastern Nevada can, with a great deal of propriety, claim the office, as this part of the State had it last year; so that geographically, and by right of competency Mayhugh would seem to be the man for the place.

It looks now as though the Greenbackers might control the next House by holding "the balance of power." The efforts to unite them for that purpose has a good prospect of success. The Republicans will probably decline all propositions to join them for the purpose of dividing the offices and the power if any compromise is required on the financial question. So the most likely result will be a "divy" with the Democrats, the Greenbackers getting a large proportion of the patronage. Although not a member of the next House, Ben Butler is expected to figure largely in organizing the Greenbackers for their coming Congressional campaign, with an eye on the national campaign in 1880.

The President and Government officials have received copies of the resolutions adopted by the Chicago Commercial Convention in return for their letter of encouragement. The gist of those resolutions is that the only way to obtain justice from the present Pacific railroad monopoly and promote trans-continental and Atlantic trade is for the Government to lend a helping hand for the construction of the Texas Pacific Railroad, and extend the time for the construction of the Northern Pacific.

The immense horns of South African cattle are made to twist spirally and in fanciful curves by being scraped on one side or the other while they are growing. Each owner can tell the oxen that belongs to his "span" in this way by the acquired shape of their naturally regular horns. Here is a practical hint.

THE OLD GAME.

The evidence of monstrous fraud and violence on the part of the Southern Democrats against the Republicans is piling up so high that the Administration is forced to take notice of it. The cry comes up from South Carolina, Mississippi and Louisiana establishing the facts beyond doubt that the Democrats still persist in keeping the majority under foot at whatever cost. And in this case the Democrats are robbed of their usual defence, namely, the charge that the Republicans are making bloody shirt talk to affect the elections. All the elections for this year have been held, and there will be no more Congressional elections, except four members in California, for a year. Neither could the Republicans expect by bringing forward this evidence to affect the standing of Congress, for no proof could be sufficient to wring justice from a body which would take action of the present House, so worthy of imitation in election contests, and that is what it is claimed the next House will do. But the fact is beyond recall that the evidence is sufficient to destroy the President's confidence in the Southern leaders who have cheated him, he himself acknowledges their fair promises. The Administration has concluded reluctantly that it must take immediate and decided action in the matter, and the U. S. Attorneys of some of the Southern States are in consultation with the Attorney General, who will instruct them how to proceed. Many offenders have been arrested and many more will be, and it is declared in official circles that the Government will be used to enforce the laws against the violators of the constitution. The question will be forced upon the attention of Congress early in its session, and some likely work is anticipated.

AN INTER-OCEANIC CANAL.

Rear Admiral Ammen, United States Navy, read a paper of great value before the American Geographical Society, in New York City, on Tuesday night, in which he spoke favorably of the surveys made by the Government for a canal to connect the Atlantic and Pacific oceans. The most important physical feature of the route surveyed on the isthmus of South America is Lake Nicaragua, which is one hundred and eight feet above the ocean levels, but which is designed to be the summit level of the proposed inter-oceanic canal, whose cost is estimated at fifty million dollars. There is no doubt of the feasibility of building such a ship canal, for nature and engineering science both favor it. The question at issue, it would seem, is this: Can this inter oceanic canal be made profitable to its constructors? Ammen estimates that not less than 3,000,000 tons of American and British shipping would pass through the canal annually, and that the aggregate tonnage of other commercial nations would be very large. The saving of distance between New York and San Francisco via. Lake Nicaragua would be eight thousand miles. If this great enterprise is ever carried out, it will probably be on an international basis. No one government should attempt it, nor own it when completed.

JIM BLAINE.

The part which Senator Blaine took in the late campaign should not be overlooked in the distribution of awards to the Republican chieftains. From the opening of the campaign during the Summer in Maine until after the November elections, he took no rest. The demand for his services were incessant, and the Republican managers and condidates, from Massachusetts to Kansas, were clamorous for him to come if it were only to make "just one speech." Everywhere he was received with great warmth, and dealt telling blows to the foe. It is safe to say that he never has made a better impression than during this campaign, and but just to say that he is deserving of the highest credit for his part in the great work accomplished.

If Roscoe Conkling lives to the end of the new term which it is pretty certain New York is about to give him, he will be distinguished as the only Senator from that State who ever served so long as eighteen years.

South Carolina's cotton crop is excellent, but her crop of politicans shows little or no signs of improvement.

It is almost needless to say that the police have not yet succeeded in arresting the dispoilers of Mr. Stewart's grave.

EDITORIAL NOTES.

A few bottles of the renowned comet vintage of 1811 are still left, and so fierce are the Parisians for it that they gladly pay $62 50 a pint for it. Out this way Jersey lightning made the night before in the cellar, does very well—in fact acts as an inspiration for the time being. "Geographical lines" you know, must be considered.

A novel relic is soon to be sold at auction in Paris. It is nothing more nor less, than a piece of the skin of Anne of Austria, wife of Louis XIII. The piece is four inches broad and eleven inches long and was taken from her arm by a physician, so that members of her family "could have something to remember her by." This piece of hide has been carefully preserved ever since, until now the last representative of the family having died it is to be sold. Anne's opinion of the matter would be interesting, if obtainable.

The news of Edison's discovery of the electric light has caused such a scare among gas shareholders in London, that several hundred pounds worth of £10 shares in the stock of one company, recently sold at auction, were knocked down at a reduction of over £3 from the figure of the previous week. The invention is attracting general attention, and everything points to the fact that in the near future gas will be about as old-fashioned as tallow dips are now. Edison has great faith in the ultimate success of his experiments, and from what we know of him, this confidence means more than a fanatic's delusion.

Last Winter the Legislature of New Hampshire passed a law in substance as follows:

Any tramp who begs is to be arrested; if he is a native of the State he is to be sent to the town where he belongs; if he is not a native of the State he is to be sent to the State prison for three years; a reward of $50 is given for the arrest and conviction of a tramp.

To-day not one of the order can be found in New Hampshire. Tramps avoid that region as they do a piece of work. Why not pass a similar law in Nevada. It would do our people a power of good by lessening the crimes and expenses incident to punishing and imprisoning the migratory thieves commonly called "tramps."

In round numbers we have now thirty thousand post offices, and they are increasing at the rate of about two thousand a year.

CATARRH

THE EYE, EAR and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an unspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen*,—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *invaluable*, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
of Wells, Fargo & Co.

CORAM, N. Y., June, 1878.

SIMMOND'S NABOB WHISKY

CONSUMERS ARE REFERRED TO the following extract from the report of the eminent public analysts: "This is a pure barley and wheat spirit remarkably in fragrant ethers, which impart a delicate aroma, at the same time greatly increasing its value as a diffusive stimulant. The solid residue contains a large amount of tannin, derived from storing in oak casks, which imparts to fine old whisky one of its valuable individual qualities. The amount of the residue proves the whisky to be free from the excessive coloring and sweeting so generally used in adulterating, in fact, in two words it is the PUREST WHISKY, and will not only supply a public want now, that whiskies are so generally adulterated, but will be of the greatest value to the physician in those numerous cases where pure whiskies are the most useful of all medicines." All subscribers indebted to us must make payment before January 1st, 1879, or their names will be stricken from our list. We trust those knowing themselves indebted to us for either the Daily or Weekly will make immediate payment.

Still She Boils.

The panic in stocks still continues, making it the longest and most disastrous ever known. Yesterday Sierra Nevada and Union sold as low as 48 and 49. These two were affected the most; all the rest held their own tolerably well. Last night the favorites marched up to 56 and 58, the rest of the market sympathizing in proportion.

The Nevada Transcript.

The Nevada *Transcript* is out in a new dress, which gives it an appearance of beauty not surpassed by any country paper on the Coast. The *Transcript* is one of our most valued exchanges, and we are heartily pleased to note any improvement which makes it more welcome. Nevada City ought to be very proud of the *Transcript*, and give it a better support than ever.

SEEING the great necessity of accommodating our large number of customers who reside in the southern part of San Francisco, I have opened a fine establishment for their accommodation. All wishing to purchase any article from my immense stock, may be assured of getting only first-class articles. Remember the exact location of the new establishment, No 221 Kearny Street, west side, between Bush and Sutter, next to Maison Doree Restaurant. Uncle Harris, Proprietor.

THE Farmers' Store is receiving one of the largest and best selected stock of goods ever brought to Reno. At this store can be found everything needed by this community, and at such low prices as have always prevailed at the establishment.

GRAND PRIZE is coming to the front once more, it seems. Despite the panic it has marched right along up, until yesterday afternoon it was quoted at 10¼.

Brevities.

About time to commence advertising holiday goods.

The attendant physician says Mrs. J. C. Hagerman is now out of danger.

It appears that the way to resume is to ask the New York banks about it.

"For ways that are dark and tricks that are vain, Sierra Nevada's peculiar."

The delinquent list of the Jones & Kinkead is published. All interested will read it.

"The snow-capped Sierras" are a reality, and will remain so until next Summer.

Carson is enjoying a piece of scandal as long as a clothesline and keeps it all to herself, of course.

The County officers elect are getting their bonds ready for endorsement of the Commissioners when they meet.

The $3 assessment on Sierra Nevada was delinquent yesterday, and the stock touches 48. Where will it stop.

Mrs. Noyes has sold the bar fixtures of the old saloon to a man who is about to start business in Paradise, Humboldt Co.

McGinley has gone into the evergreen tree business and expects soon to sell everybody some of them. Mac says they are "periodically" fine trees. He knows

A Mr. Allen had his left leg broken at Crystal Peak Thursday afternoon by a load of wood falling on him. Dr. Dawson was called and rendered the necessary surgery.

E. E. Underwood Assemblyman elect of Wadsworth, is still confined to his bed with the rheumatic attack he received two weeks ago.

A number of papers in the State that abused Governor Bradley for not issuing a Thanksgiving proclamation, are now ridiculing him for doing so.

Reno uses the tar bucket to get rid of her objectionable characters, but Truckee tears down the houses of those they want to get rid of. Both are effectual.

G. R. Holcomb advertises a brown horse, with white face, spot on his side and white feet, and about 5 years old, which came to his ranch on Truckee Meadows about a month ago.

The coat of tar and feathers, frequently worn by citizens of Reno who have managed to make themselves disliked, is now known throughout the State as the Reno ulster.

The money till of the Wine House was robbed Thursday morning of $60. The thief allowed himself to be locked in and after going through the till got out of the back window. No clue.

The news from the Esmeralda Con. is better and better. The deeper the shaft goes the richer the rock becomes. The stockholders already begin to figure on the plans and specifications of their Nob Hill residences.

The Secretary of State has until the 25th to examine the reports sent him by the County Commissioners of the vote of the different counties. He then makes out the official report and issues certificates of election to the State officers.

A Magnificent Meteor.

A large number of our people witnessed a most beautiful meteor last evening, which slowly and majestically wended its way through the heavens and finally landed, they said, over by Lake's ditch. It was a beautiful thing, and made a lasting impression upon the minds of all who witnessed it.

Cattle.

The largest band of cattle ever seen in these parts was driven through town yesterday. It numbered over 600 head, and belonged to Wheeler, who had brought them in from Honey Lake and was driving them to his ranch where he will Winter them.

In Error.

We were misinformed when we said Huntington, Hopkins & Co. had forced Luke to the wall. They did nothing of the kind, but on the contrary, acted very gentlemanly toward him. It was only after he had made an assignment of his property that they attached for the $380 due them.

Incorporation.

The *Gazette* says the people decided two years ago against incorporation. It is not so. The election resulted in a majority of 38 in favor of the measure. Still the people may not want it now. That is for them to say.

ENGLAND has thrown down the gauntlet of war, and is marching her troops over the borders of India to thrash the Ameer of Afghanistan. In the meantime the enemy is not idle. LAST NOTICE.—We, the undersigned Barnett Bros., hereby request all those indebted to us to make payment before January 1st, 1879, otherwise we are compelled to force collection by instituting legal proceedings.
* BARNETT BROS.

THANKSGIVING BALL.—Prof. J. W. Scott will give a grand ball at Kimball's Hall on the evening of Thursday, Nov. 28th. The best of music will be in attendance and everything that will conduce to the pleasure of all will be secured. *

NOTICE.—All persons indebted to us are hereby notified to settle up at once, either by note or coin, or suit will be commenced by December 5th, 1878. C. A. BRAGG & Co.*

WANTED.—A girl to do general housework. Apply at this office.*

STAGE for Pyramid twice a week.
* A. JOSE.

NEW DEPARTURE.—On and after December 1st, 1878, the store of Manning & Duck will be conducted on a cash basis. Every customer will be compelled to pay for his own goods. No extra profits for bad debts. We propose to sell goods cheaper than they have ever been sold in this market. We are compelled to this important step by several weighty reasons: First, we wish to encourage prompt payment. Second, the prompt payer should not be compelled to pay an extra profit for the slow customer or the man that never pays. Third and most important reason, we are not able to carry so large an amount of our capital on our books and keep up our stock of goods. Good gilt edge customers will be allowed a credit of thirty days. If by agreement longer time is given, interest of 1½ per cent. a month will be charged.

A. H. MANNING.

N. B. The old accounts of Manning & Luck must be settled by cash or note by the 1st of next January or they will be placed in the hands of a collector for collection.

* A. H. MANNING.

A CARD TO THE PUBLIC.—I do not sell any goods 20 per cent. below cost, or even at cost, but I offer my first class stock of clothing, furnishing goods, boots and shoes, hats and caps, trunks and valises, etc., etc., which have been bought for cash, at the lowest market rates. Therefore I wish the public to post themselves on my prices before going to the humbug shops where they are always drumming into the ear that they are selling at cost, or below cost. They either bought unsalable goods or they lie to deceive the public; they don't deserve to be patronized. Remember the One Price Store—The White House—No 19 Commercial Row, next door to the Postoffice.
* L. ABRAHAMS.

CONTINENTAL OIL AND TRANSPORTATION CO.—F. McRae is prepared to furnish all kinds of lubricating and coal oils to any parties in the State, at the most reasonable rates. Being sole agent for the Continental Oil and Transportation Company, he can furnish better rates and quality than anyone else. Office near Bragg's Lumber Yard, Reno, Nevada. *

SELLING OUT.—A. P. Dallam announces that his stock, consisting of shelf goods, counters, cases, tables, etc., and a range, must be sold between now and the 25th. Everything will be sold without regard to cost. Give him a call right away.*

DANCING SCHOOL.—J. W. Varney will open a class for gentlemen, at the Academy of Music, commencing Friday evening at 8½ o'clock, November 19th, 1878. All the late dances taught. Tuition, $3 for four lessons, in advance.
* J. W. VARNEY.

WHO WANTS BARGAINS?—The dissolution sale of Barnett Bros. offers extra inducements just now, if you have the coin and need Dry Goods, Clothing, etc., of any kind. They sell without regard to cost, as a glance at their price list in another part of this paper shows. Let all who want bargains call on them as they mean just what they say. All indebted to them are desired to come up and settle immediately. *

THE simplest, best and most durable machines—the New American—for sale for $30, at S. N. Davidson's, Jeweler. *

A GOOD PLAN.

The most profitable plan for operating in stocks is that of uniting capital of various sums by combining or pooling the orders of thousands of customers and using them as ONE MIGHTY WHOLE which has been done successfully by Messrs Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City By this co-operative system each investor is placed on an equal footing with the largest operator and profits are divided pro rata among the shareholders every 30 days An investment of $10 would pay $50, making 5 per cent on the stock during the month $25 would return $7 50, or 6 per cent; $100 would make $1,000, or 10 per cent., and so on according to the market *Frank Leslie's Illustrated Newspaper*, June 29th, says "The Combination method of operating in stocks is the most successful ever adopted" New York *Independent* Sept. 12th, says "The combination system is founded upon correct business principles and no person need be without an income while it is kept working by Messrs. Lawrence & Co" Brooklyn *Journal*, April 30th, says: "Our editor made a net profit of $101 45 on an investment of $20 in one of Messrs Lawrence & Co's combinations The firm's new circular (copyrighted and sent free) contains two unerring rules for stock operations," and explains everything All kinds of Stock and Bonds wanted.
